ACCROFAB ALCESTER

QUALITY POLICY

At Accrofab (Alcester) Limited, guided by our **RISE** Values we are committed to providing an environment that empowers our employees to build trusted relationships and deliver high performance through innovation and collaboration. Enabling us to deliver trusted performance and quality to our customers. This Policy is written in accordance with AS9100, AS13100.

RESPECT – We encourage open reporting and active listening ensuring all personnel have a voice to express opportunities or concerns whether it be people, product, or process. This supports us in understanding our human factors.

INTEGRITY - We act with integrity, demonstrating honesty, consistency, and trustworthiness across all interested parties meeting compliance to applicable requirements.

SAFETY - We prioritise both product and people safety, effectively communicating all risk, removing, and mitigating risks from our products and processes.

EXCELLENCE - We strive for excellence in everything we do, continually improving the integrated management system through teamwork ensuring we are agile and respond effectively to change, enabling us to achieve the desired impact.

Our **RISE** values form the foundation of Accrofab's commitment to building a robust "JUST" culture, essential for driving our Collective Ambition. Our strategy, grouped into strategic pillars, is deployed through the Goal Deployment Plan where quality objectives are cascaded through the business and strategic workstreams. This framework is managed through the Accrofab Operating System providing structure and governance through robust processes, which drives accountability, discipline and collaboration.
